

PILGRIM PATH

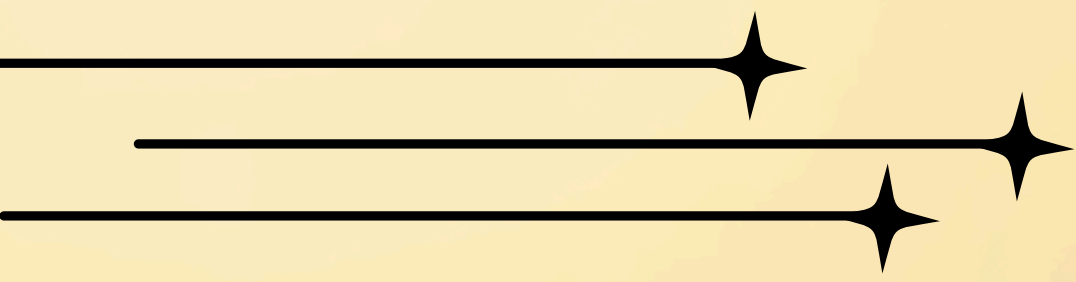

TEMPLE FINDER

Discover Sacred Places Around
You

Guiding your spiritual journey
through technology.

By Adesh, Amar, Nikhil,
Shubhashish & Tejas

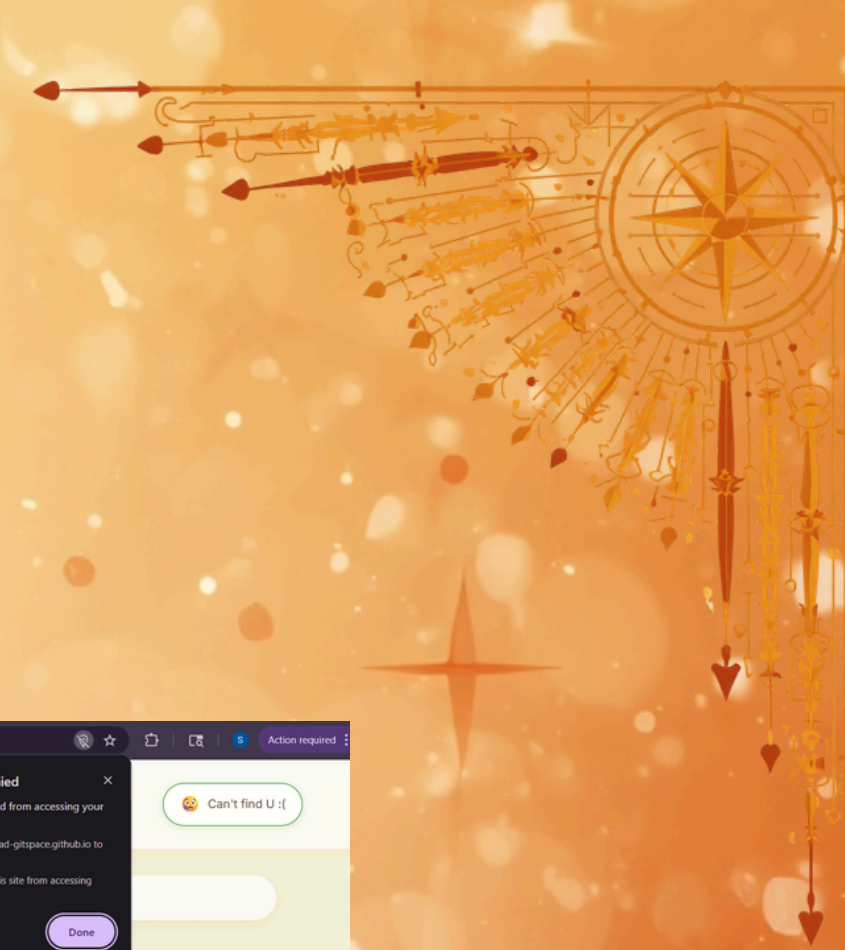

PROJECT OVERVIEW

What is Pilgrim Path? A lightweight, user-friendly web application designed to help pilgrims and spiritual seekers discover nearby temples and sacred sites with ease.

The Problem: Travelers and devotees often struggle to find accurate information about spiritual locations in unfamiliar areas. Scattered data and lack of proximity-based search makes planning spiritual journeys challenging.

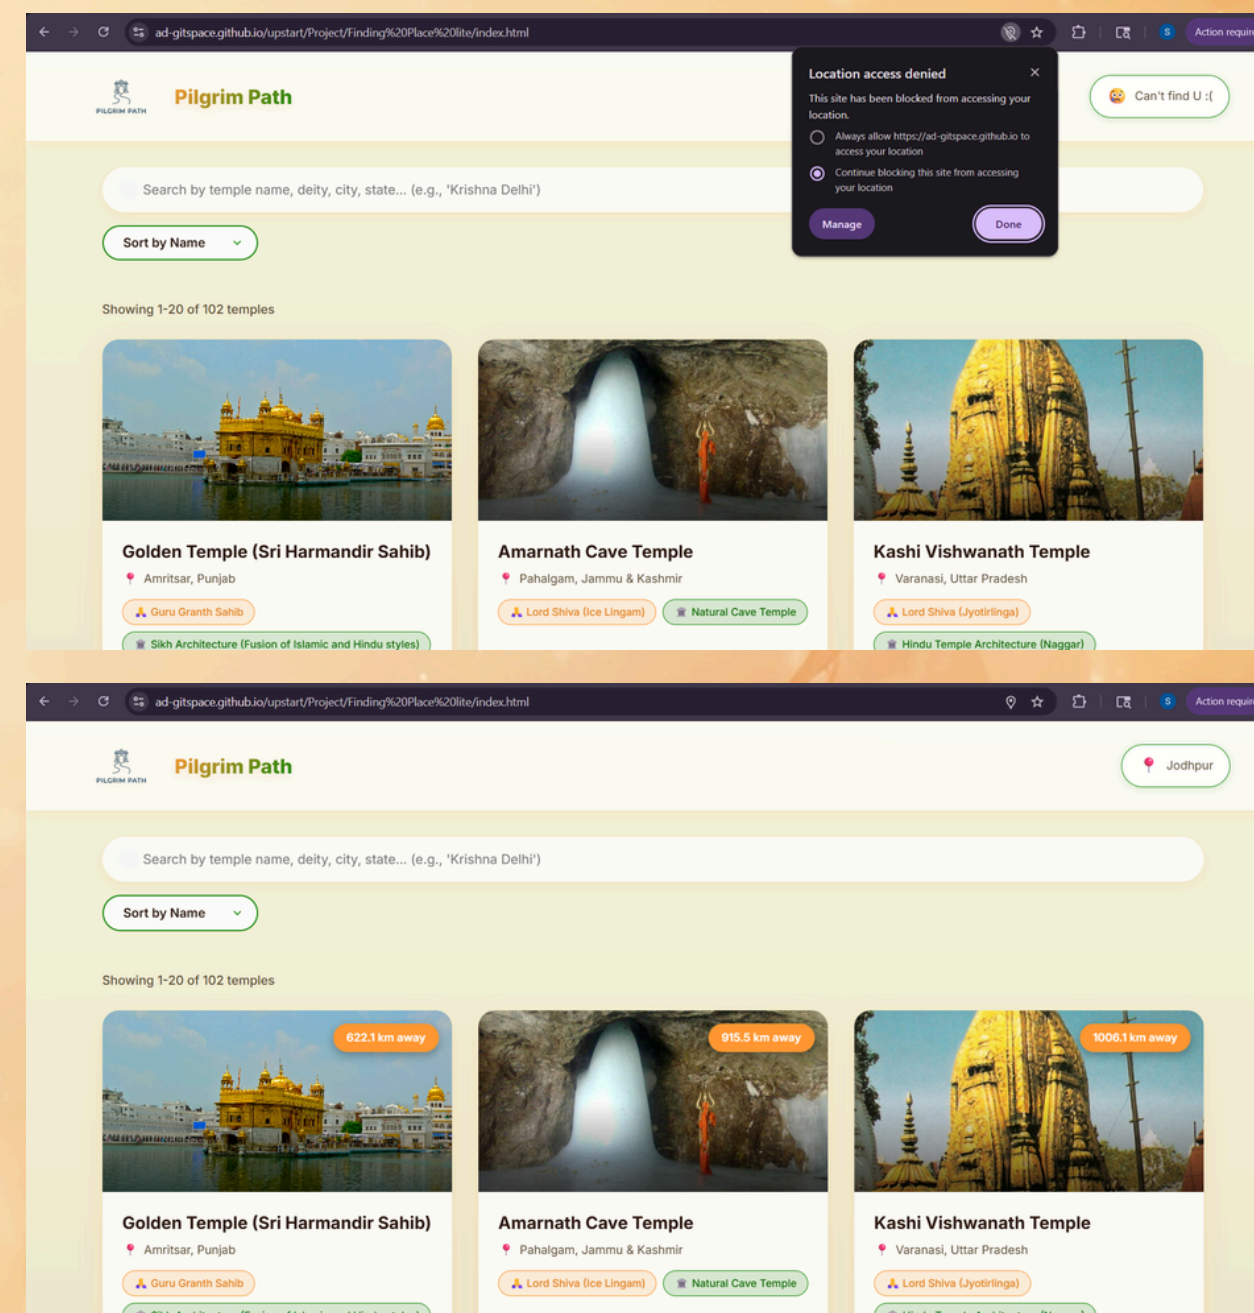

The Solution: Pilgrim Path offers a centralized, location-aware digital directory accessible from any device. Simply open the app, and instantly discover sacred places around you with accurate distances and details.

CORE FEATURES

Auto-Location

Browser Geolocation API automatically detects your precise location. Get instant results for temples and sacred sites near you. No manual input required—just allow location access and discover spiritual places around you immediately.

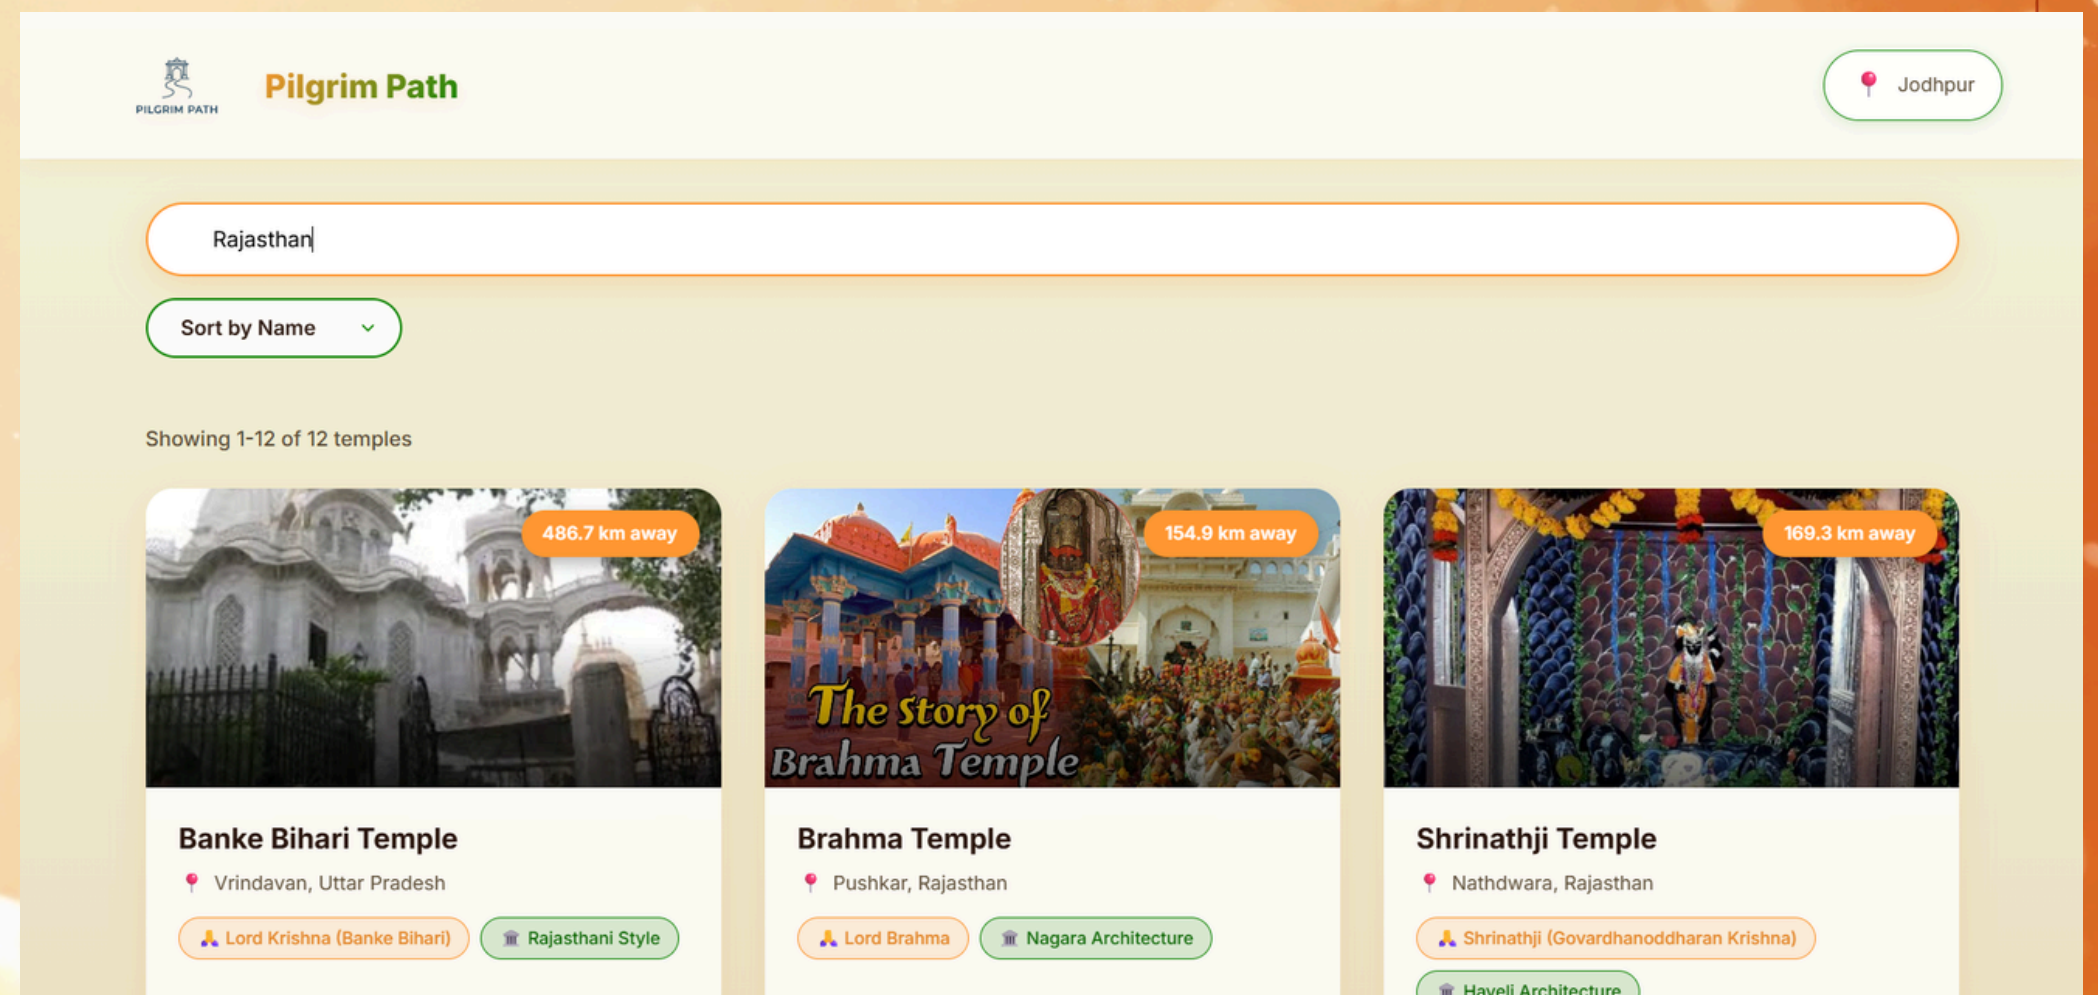

CORE FEATURES

Smart Search

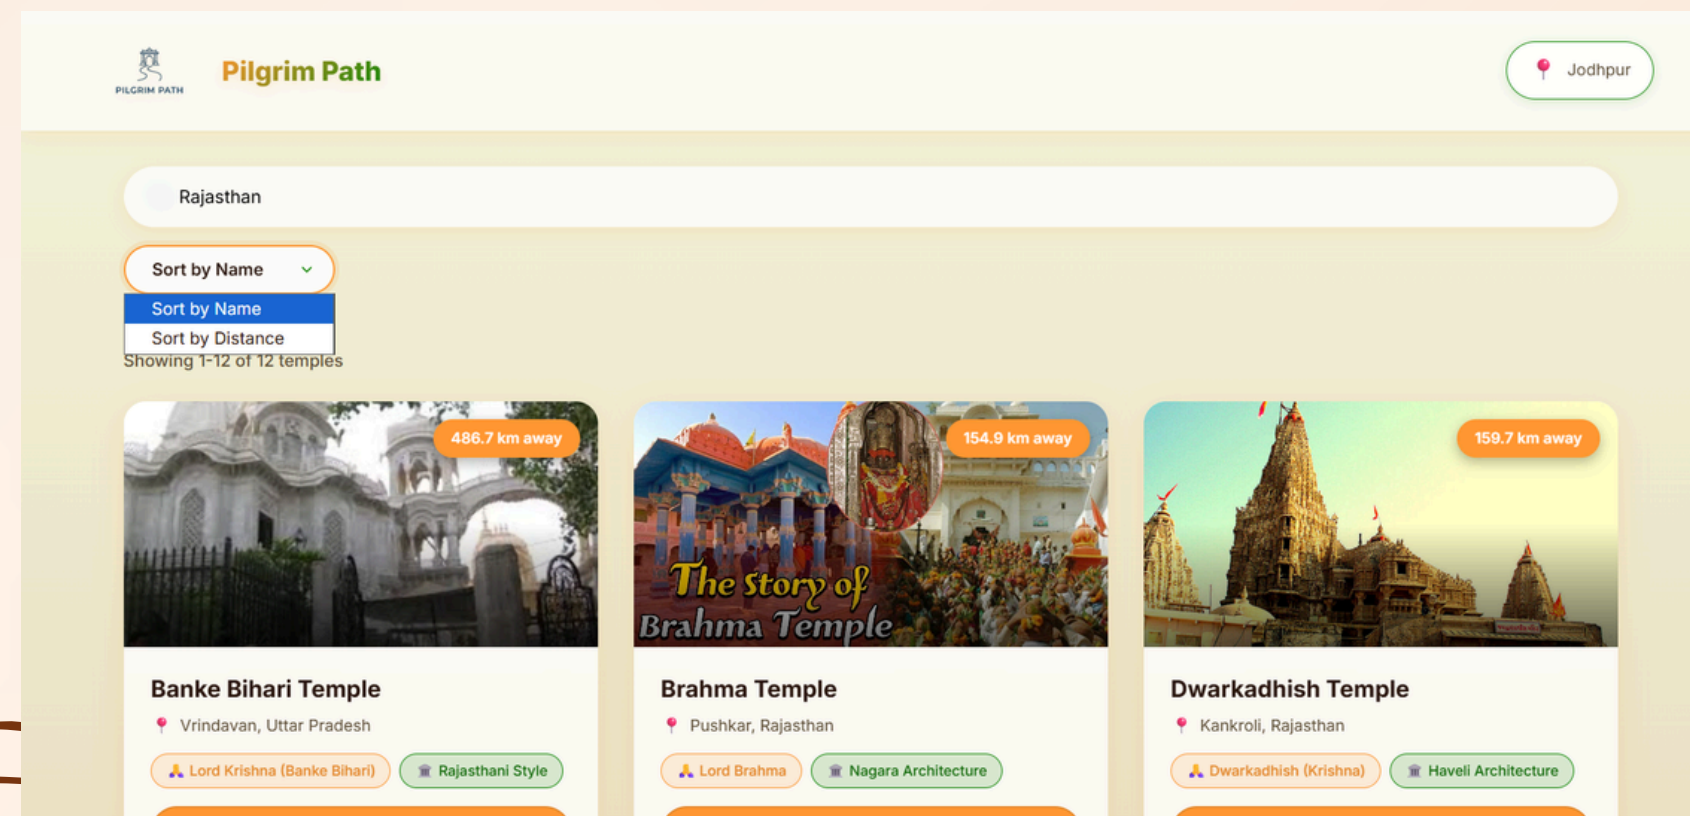

Powerful search bar () lets you find temples by name beyond nearby places. Search for specific sacred sites anywhere. Intelligent matching helps you discover temples even with partial names or alternate spellings.

DYNAMIC SORTING

Sort by Name: Browse sacred places alphabetically for easy navigation. Ideal when you know the temple name you're looking for, or when exploring the full directory of spiritual destinations in your area.

Sort by Distance: This key feature arranges temples from closest to furthest using GPS technology. Perfect for travelers who want to find the nearest sacred site quickly, saving time and making pilgrimage planning effortless.

COMMUNITY- DRIVEN GROWTH

[← Back to Search](#)

☀️ Contribute a Temple

Help us expand our database by adding details of a new sacred place. Fill out as much as you know!

Temple Name *

e.g., Kashi Vishwanath Temple

City

e.g., Varanasi

State

e.g., Uttar Pradesh

District

e.g., Varanasi

Nearest City

e.g., Varanasi

Deity

e.g., Lord Shiva

Architecture Style

e.g., Nagara

Additional Insights & Description

Share historical facts, significance, rituals, or architecture details...

Temple Images (Upload up to 100 images)

Choose files

No file chosen

Select multiple images directly from your device.

Submit Contribution

Contribute to Database: Users can submit new temples via a dedicated section, helping expand our sacred site directory.

Why It Matters: This crowdsourcing approach keeps the directory growing, accurate, and empowers the entire spiritual community to participate in preserving and sharing sacred knowledge.

TECHNICAL STACK & DEPLOYMENT

Hosting

GitHub Pages (ad-gitspace.github.io) provides fast, secure, and accessible hosting. Zero-cost deployment with reliable uptime ensures Pilgrim Path is always available to spiritual seekers worldwide.

Frontend

Clean, intuitive UI with clear icons (,) for easy navigation. Fully responsive design optimized for mobile devices, ensuring seamless temple discovery on any screen size.

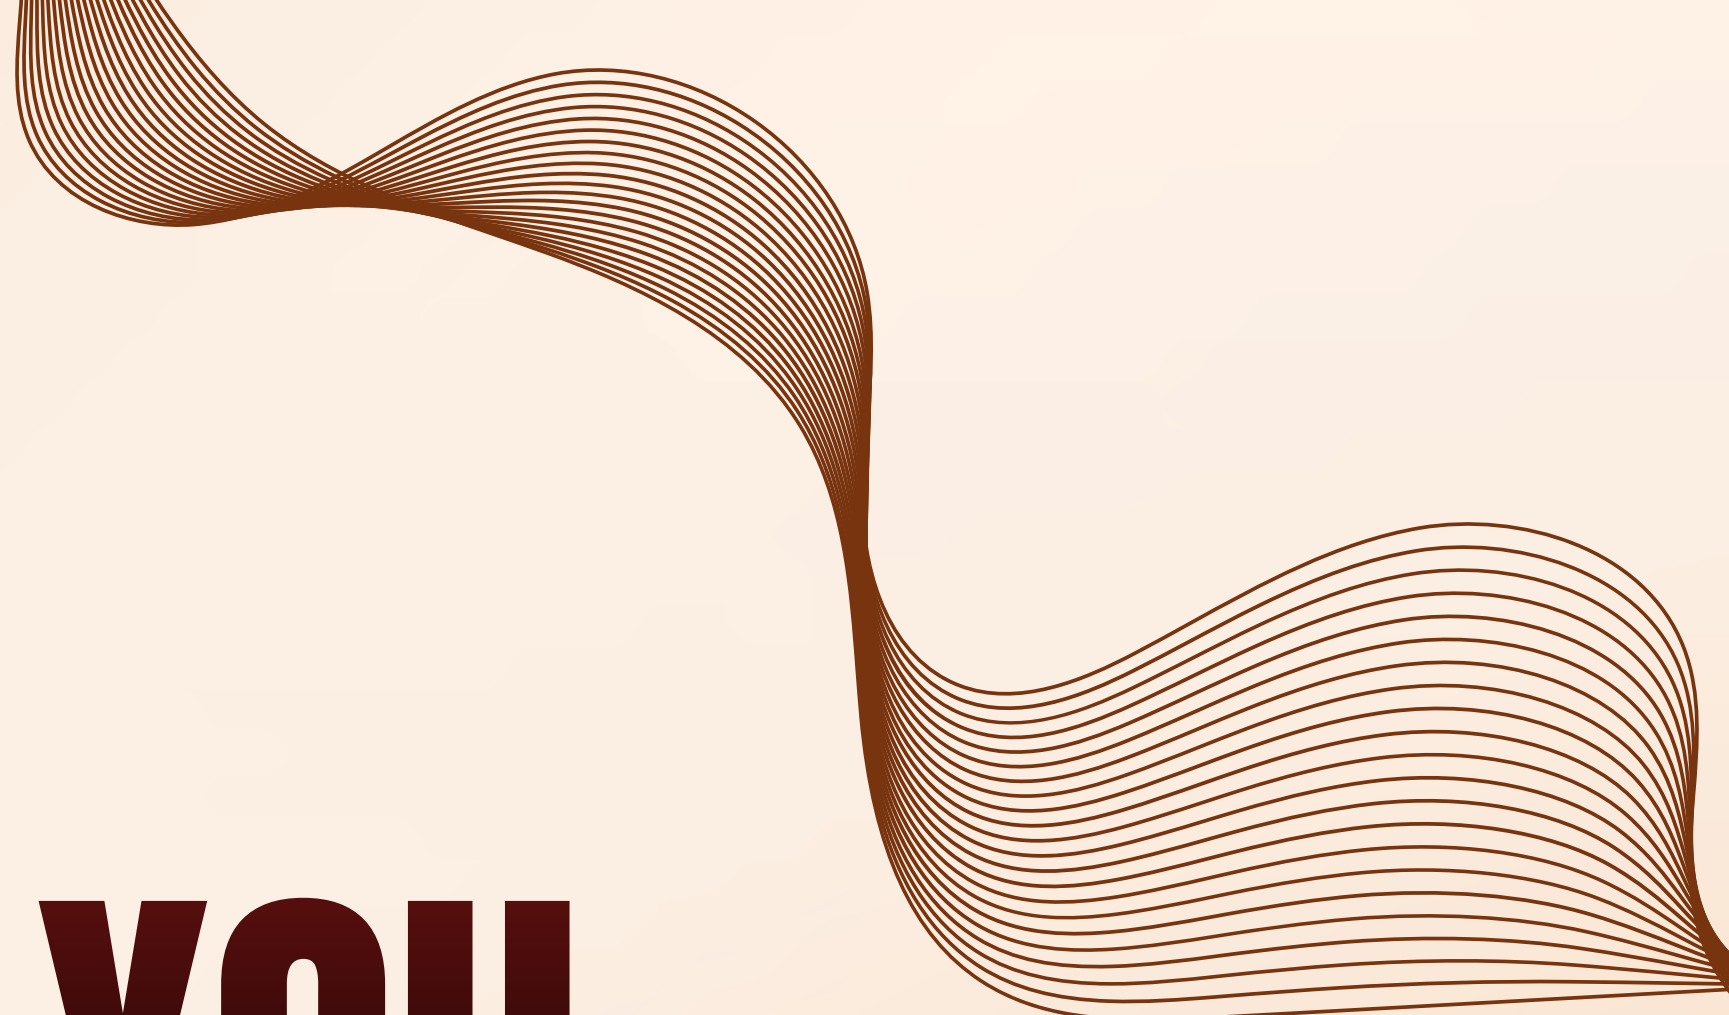

MEET THE TEAM

Developed with by:

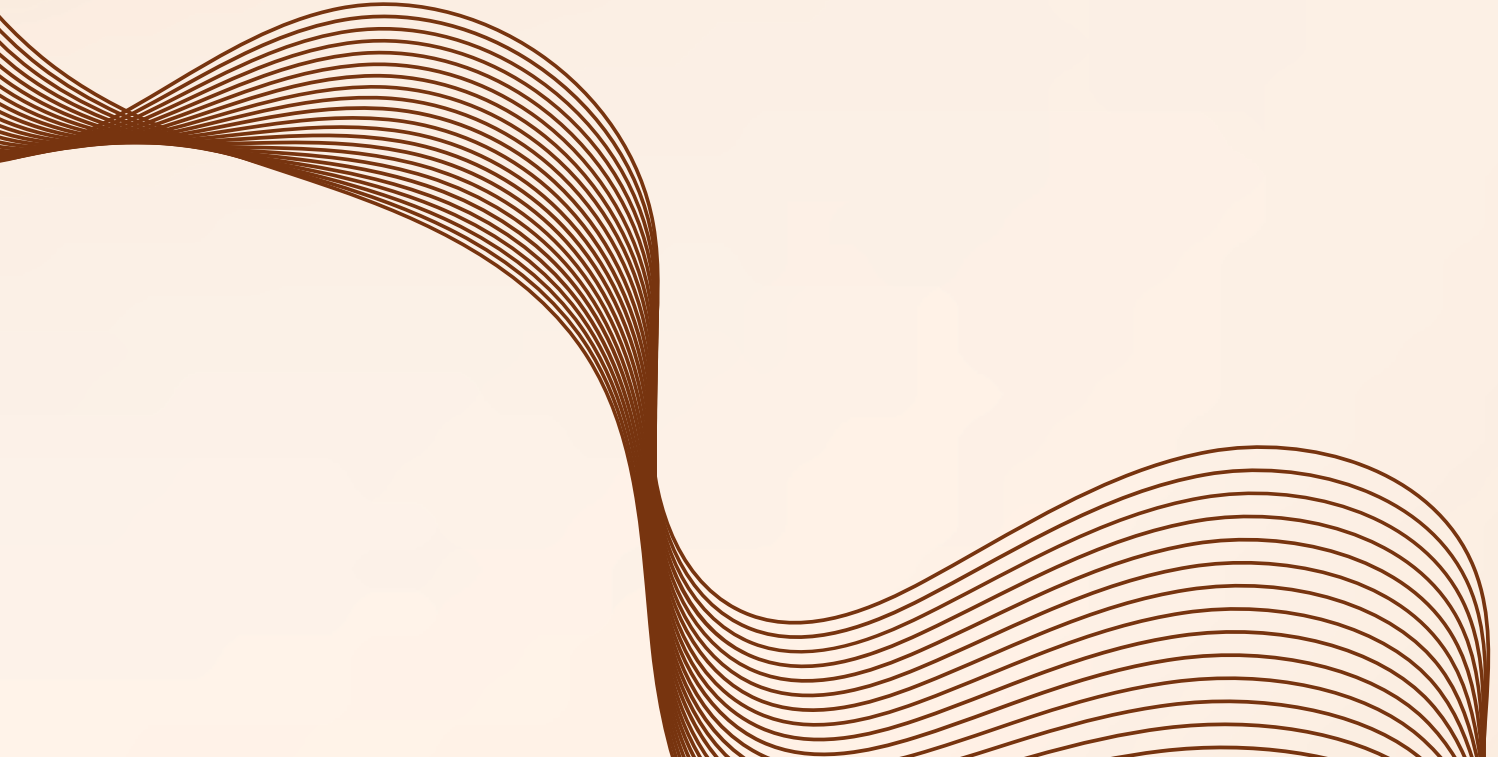

- Adesh
- Amar
- Nikhil
- Shubhashish
- Tejas

Our team brings together a shared passion for technology and spirituality. Through collaborative effort and dedication, we created Pilgrim Path to help devotees discover sacred places with ease. Together, we bridge the gap between modern technology and timeless spiritual traditions.
